INDEPENDENT AUDITORS' REPORT

To the Board of Directors of the North County Fire Protection District Fallbrook, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the North County Fire Protection District (District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2016, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Directors of the North County Fire Protection District Fallbrook, California Page 2

Emphasis of Matter

Unrestricted Net Position (Deficit)

The unrestricted net position deficit in the amount of (\$19,299,910) resulted from the reporting of the District's net pension lability, the pension-related debt – CalPERS side-fund liability, and the deferred inflows of resources – deferred amounts related to net pension liability per GASB No. 68 as discussed in Note 13. At June 30, 2016, the District's net pension lability amounted to \$15,207,799, the pension-related debt – CalPERS side-fund liability amounted to \$1,870,354, and the deferred inflows of resources – deferred amounts related to net pension liability amounted to \$3,322,339, which totals \$20,400,492. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 7 through 11 and the Budgetary Comparison Schedule – General Fund, Budgetary Comparison Schedule – Special Revenue – Fire Mitigation Fund, Schedule of the District's Proportionate Share of the Plans' Net Pension Liability, Schedule of the District's Contributions to the Pension Plan and the Schedule of Funding Progress – Other Post-Employment Benefits Plan on pages 59 through 63, respectively, are presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements as a whole. The combining and individual non-major fund financial statements on pages 67 and 68 are presented for purposes of additional analysis and are not a required part of the basic financial statements. The supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

To the Board of Directors of the North County Fire Protection District Fallbrook, California Page 3

Other Reporting Required by Government Auditing Standards

The Ren Group, UP

In accordance with *Government Auditing Standards*, we have also issued our report dated June 30, 2017, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Independent Auditors' Report

To the Board of Directors of the North County Fire Protection District Fallbrook, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the North County Fire Protection District (District) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprises the District's basic financial statements, and have issued our report thereon dated June 30, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

To the Board of Directors of the North County Fire Protection District Fallbrook, California Page 2

The Red Group, LLP

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

North County Fire Protection District Management's Discussion and Analysis (Unaudited) For the Year Ended June 30, 2016

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the North County Fire Protection District (District) provides an introduction to the financial statements of the District for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position increased \$2,232,046 as a result of this year's operations.
- Total revenues from all sources increased by 8.5%, or \$1,288,433 from \$15,106,337 to \$16,394,770, from the prior year, primarily due to an increase of \$691,273 in charges for services and \$578,268 in property tax revenues.
- Total expenses for the District's operations increased by 3.3% or \$453,925 from \$13,708,799 to \$14,162,724, from the prior year, primarily due to an increase in operations expense of \$349,461.
- Total cash and investments decreased by \$65,288 from \$3,961,714 as of June 30, 2015 to \$3,896,426 as of June 30, 2016 when not taking into consideration the cash account held for the remainder of Station No. 5 construction as of June 30, 2015 of \$1,960,644. In 2016, the District repaid its \$2.0 million principal long-term debt with the County of San Diego via remuneration of general fund cash for the Station No. 5 construction expenditures not originally charged to the construction loan. See Note 7.

Using This Financial Report

This annual report consists of a series of financial statements. The Statement of Net Position and the Statement of Activities provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies. The Statement of Net Position includes all of the District's investments in resources (assets) and the obligations to creditors (liabilities). It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Activities. This statement measures the success of the District's operations over the past year and can be used to determine the District's profitability and credit worthiness.

Government-wide Financial Statements

Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Activities report information about the District in a way that helps answer this question. These statements include all assets and liabilities using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. Think of the District's net position – the difference between assets and liabilities – as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. You will need to consider other non-financial factors; however, such as changes in the District's property tax base to assess the *overall health* of the District.

North County Fire Protection District Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2016

Governmental Funds Financial Statements

Balance Sheet and Statement of Revenues, Expenditures and Changes in Fund Balance

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balance provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources of the District exceeded assets and deferred outflows of resources by \$12,369,602 as of June 30, 2016.

Condensed Statement of Net Position

	June 30, 2016	June 30, 2015	Change		
Assets:					
Current assets	\$ 5,416,218	\$ 7,116,991	\$ (1,700,773)		
Capital assets, net	11,126,671	11,178,853	(52,182)		
Total assets	16,542,889	18,295,844	(1,752,955)		
Deferred outflows of resources	2,549,355	2,032,456	516,899		
Liabilities:					
Current liabilities	1,534,992	3,788,024	(2,253,032)		
Non-current liabilities	26,604,515	26,773,199	(168,684)		
Total liabilities	28,139,507	30,561,223	(2,421,716)		
Deferred inflows of resources	3,322,339	4,368,725	(1,046,386)		
Net position (Deficit):					
Net investment in capital assets	5,997,547	7,789,578	(1,792,031)		
Restricted	932,761	721,388	211,373		
Unrestricted (Deficit)	(19,299,910)	(23,112,614)	3,812,704		
Total net position (deficit)	\$ (12,369,602)	\$ (14,601,648)	\$ 2,232,046		

At the end of fiscal year 2016, the District shows a deficit balance in its unrestricted net position of (\$19,299,910).

Total revenues	\$	16,394,770	\$	15,106,337	\$	1,288,433

Total revenues from all sources increased by 8.5%, or \$1,288,433 from \$15,106,337 to \$16,394,770, from the prior year, primarily due to an increase of \$691,273 in charges for services and \$578,268 in property tax revenues.

North County Fire Protection District Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2016

Total Expenses:

	<u>Ju</u>	June 30, 2016 June 30, 2015				Increase (Decrease)		
Expenses:								
Operations	\$	13,226,489	\$	12,877,028	\$	349,461		
Depreciation expense		657,221		586,493		70,728		
Interest expense		279,014		245,278		33,736		
Total expenses	\$	14,162,724	\$	13,708,799	\$	453,925		

Total expenses for the District's operations increased by 3.3% or \$453,925 from \$13,708,799 to \$14,162,724, from the prior year, primarily due to an increase in operations expense of \$349,461.

Governmental Funds Financial Analysis

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the District's financing requirements. In particular, the *unreserved fund balance* may serve as a useful measure of the government's net resources for spending at the end of the fiscal year.

As of June 30, 2016, the District reported a total fund balance of \$7,578,687. An amount of \$1,487,497 constitutes the District's *unassigned fund balance*.

General Fund Budgetary Highlights

The final budgeted expenditures for the District at year-end were \$2,529,474 more than actual. The variance is principally due to the increase in expenditures for debt service – principal payments of \$2,033,899 than budgeted. Actual revenues were greater than the anticipated budget by \$1,488,448.

Capital Asset Administration

Changes in capital asset balances for the year were as follows:

		Balance			7	Trans fe rs/		Balance
	Ju	July 1, 2015		Additions		Deletions	June 30, 2016	
Capital assets:								
Non-depreciable assets	\$	5,853,205	\$	238,101	\$	(5,478,667)	\$	612,639
Depreciable assets		15,087,926		366,938		5,478,667		20,933,531
Accumulated depreciation		(9,762,278)		(657,221)				(10,419,499)
Total capital assets, net	\$	11,178,853	\$	(52,182)	\$		\$	11,126,671

At the end of fiscal year 2016, the District's investment in capital assets amounted to \$11,126,671 (net of accumulated depreciation). This investment in capital assets includes structures and improvements, hydrants and equipment and vehicles. See note 4 for further information on the District's capital assets.

North County Fire Protection District

Management's Discussion and Analysis (Unaudited) (Continued) For the Year Ended June 30, 2016

Debt Administration

Changes in long-term debt balances for the year were as follows:

Balance		ee		I	Principal	Balance			
July 1, 2015		Add	Additions		ayments	June 30, 2016			
\$	5,349,919	\$	-	\$	(220,795)	\$	5,129,124		

See further detail at note 6.

Conditions Affecting Current Financial Position

Management has identified certain conditions that exist that could significantly impact the District's current financial and net positions. The District needs to identify funding for future acquisitions as outlined in the District's capital equipment replacement plan for both apparatus and facilities. The specific designated funds for such projects were depleted in the past recession with no identified monies to replenish. The District's retirement system through CalPERS is another future uncertainty with ballooning costs due to poor CalPERS returns on investments (ROI) and adjustments due to retirees living longer and anticipated changes in assumption rates.

Requests for Information

The District's basic financial statements are designed to present users with a general overview of the District's finances and to demonstrate the District's accountability. If you have any questions about the report or need additional information, please contact the North County Fire Protection District at, 330 South Main Avenue, Fallbrook, California 92028 or (760) 723-2005.

Change in Net Position of Governmental Activities	\$	2,232,046	

North County Fire Protection District Notes to the Basic Financial Statements For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies

Organization and Operations of the Reporting Entity

The North County Fire Protection District (District) provides fire and emergency medical services to the taxpayers and residents in the Fallbrook, Rainbow and Bonsall communities of northern San Diego County. The District's governmental powers are exercised through a five-member board of directors.

The criteria used in determining the scope of the financial reporting entity is based on the provisions of Governmental Accounting Statements No. 61, *The Financial Reporting Entity*. The District is the primary governmental unit based on the foundation of a separately elected governing board that is elected by the citizens in a general popular election. Component units are legally separate organizations for which the elected officials of the primary government are financially accountable. The District is financially accountable if it appoints a voting majority of the organization's governing body and: 1) It is able to impose its will on that organization, or 2) There is a potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government.

Basis of Accounting and Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the activities of the primary government. The effect of inter-fund activity has been removed from these statements and eliminations have been made to minimize the double counting of internal activities. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and the major individual enterprise funds are reported as separate columns in the fund financial statements.

The District's financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States.

North County Fire Protection District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Basis of Accounting and Measurement Focus (Continued)

In accordance with GASB Statement No. 63, Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position, the Statement of Net Position reports separate sections for Deferred Outflows of Resources, and Deferred Inflows of Resources, when applicable.

Deferred Outflows of Resources represent outflows of resources (consumption of net position) that apply to future periods and that, therefore, will not be recognized as an expense until that time.

Deferred Inflows of Resources represent inflows of resources (acquisition of net position) that apply to future periods and that, therefore, are not recognized as a revenue until that time.

The government-wide financial statements are reported using the "economic resources" measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when the liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the "current financial resources" measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers tax revenues to be available if they are collected within 60 days of the end of the current fiscal year and other revenues when collected within one year of the end of the current fiscal year. Expenditures generally are recorded when a liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences are recorded only when payment is due.

The primary revenue sources susceptible to accrual are property taxes, charges for services, and interests associated with the current fiscal period and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The District reports the following major funds:

General Fund – This is a government's primary operating fund. It accounts for all financial resources of the District, except those required to be accounted for in another fund when necessary.

Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes.

Fire Mitigation Fund – This fund is used to account for fees collected from builders in the service area that are restricted for the purchase of new capital assets when those assets are needed due to population and infrastructure growth in the service area.

Other Governmental Funds

Rainbow Subzone – **Operations Fund** – This fund is used to account for revenues collected and restricted for expenditures made in the Rainbow Subzone service area.

For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Basis of Accounting and Measurement Focus (Continued)

Other Governmental Funds (Continued)

The Rainbow Subzone – **Fire Mitigation Fund** – This fund is used to account for fees collected from builders in the service area that are restricted for the purchase of new capital assets that are needed due to population and infrastructure growth in the Rainbow Subzone service area.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in District net position during the reporting period. Actual results could differ from those estimates.

Investments

Changes in fair value that occur during a fiscal year are recognized as unrealized gains or losses and reported for that fiscal year. Investment income comprises interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

In accordance with GASB Statement No. 72, *Fair Value Measurement and Application*, defines fair value, establishes a framework for measuring fair value and establishes disclosures about fair value measurement. Investments, unless otherwise specified, recorded at fair value in the Statements of Net Position, are categorized based upon the level of judgment associated with the inputs used to measure their fair value. Levels of inputs are as follows:

- Level 1 Inputs are unadjusted, quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 Inputs, other than quoted prices included in Level 1 that are observable for assets or liabilities through corroboration with market data at the measurement date.
- Level 3 Unobservable inputs that reflect management's best estimate of what market participants would use in pricing the assets or liabilities at the measurement date.

Accounts Receivable and Allowance for Doubtful Accounts

Accounts receivable – ambulance billings consist of amounts owed by individuals for services rendered for ambulance transport. Uncollectable accounts are based on prior experience and management's assessment of the collectability of existing accounts. As of June 30, 2016, an allowance for doubtful accounts has been recorded for those uncollectable accounts. (See Note 3)

North County Fire Protection District

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Capital Assets

Capital assets are recorded in the government-wide financial statements. Included in capital assets is equipment used at the District. District policy has set the capitalization threshold for reporting capital assets at \$5,000. Donated assets are recorded at estimated fair market value at the date of donation. Capital outlay is recorded as expenditures of the governmental funds and as assets in the government-wide financial statements to the extent the District's capitalization threshold is met. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

Structures and improvements 10 to 50 years
Hydrants 10 years
Equipment and vehicles 5 to 20 years

Compensated Absences

The District's policy is to permit full time employees to accumulate earned vacation time and sick leave. Earned vacation time shall be earned by each employee subject to the accrual limitations and policies as defined by District policies. Such unused compensation is calculated at the employees' then prevalent hourly rate at the time of retirement or termination. Whereas vacation time is compensated at 100% of accumulated hours, sick leave is accrued and compensated only at retirement or termination based on the years of employment.

Pension Plan

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the plans and additions to/deductions from the plans' fiduciary net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The following timeframes are used for pension reporting:

CalPERS

Valuation Date June 30, 2014 Measurement Date June 30, 2015

Measurement Period July 1, 2014 to June 30, 2015

Gains and losses related to changes in total pension liability and fiduciary net position are recognized in pension expense systematically over time. The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to pensions and are to be recognized in future pension expense. The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized straight-line over 5 years. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive, and retired) as of the beginning of the measurement period.

Property Taxes

The San Diego County Assessor's Office assesses all real and personal property within the County each year. The San Diego County Tax Collector's Office bills and collects the District's share of property taxes and voter-approved taxes. The San Diego County Auditor-Controller's Office remits current property tax collections to the District throughout the year. Property tax in California is levied in accordance with Article XIIIA of the State Constitution at one percent (1%) of countywide assessed valuations.

North County Fire Protection District Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Property Taxes (Continued)

Property taxes receivable at year-end are related to property taxes collected by San Diego County, which have not been credited to the District's cash balance as of June 30. The property tax calendar is as follows:

Lien date March 1 Levy date July 1

Due dates November 1 and March 1 Collection dates December 10 and April 10

Property taxes levied are recorded as revenue when received, in the fiscal year of levy, because of the adoption of the *alternate method of property tax distribution* known as the Teeter Plan, by the District and San Diego County. The Teeter Plan authorizes the County Auditor-Controller to allocate 100% of the secured property tax billed but not yet received or paid to the District. San Diego County remits tax proceeds to the District in installments during the fiscal year.

Net Position

Net position is categorized as follows:

Net Investment in Capital Assets – This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt outstanding against the acquisition, construction or improvement of those assets.

Restricted – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net position consists of net amount of assets that are not included in the determination of *restricted* or *net investment in capital assets*.

North County Fire Protection District Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Fund Balance

The financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

Nonspendable – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.

Restricted – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions enabling legislation.

Committed – amounts that can only be used for specific purposes determined by formal action of the District's highest level of decision-making authority (the Board of Directors) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

Assigned – amounts that are constrained by the District's intent to be used for specific purposes. The intent can be established at either the highest level of decision-making, or by a body or an official designated for that purpose.

Unassigned – the residual classification for the District's general fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Board of Directors established, modifies or rescinds fund balance commitments and assignments by passage of a resolution. This is done through adoption of the budget and subsequent budget amendments that occur throughout the year.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the unrestricted, committed, assigned and unassigned resources as they are needed.

Fund Balance Policy

The District believes that sound financial management principles require that sufficient funds be retained by the District to provide a stable financial base at all times. To retain this stable financial base, the District needs to maintain an unrestricted fund balance in its funds sufficient to fund cash flows of the District and to provide financial reserves for unanticipated expenditures and/or revenue shortfalls of an emergency nature. Committed, assigned and unassigned fund balances are considered unrestricted.

The purpose of the District's fund balance policy is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time expenditures.

North County Fire Protection District Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 1 – Reporting Entity and Summary of Significant Accounting Policies (Continued)

Accounting Changes

Statement No. 72, Fair Value Measurement and Application, which provides guidance for determining a fair value measurement for financial reporting purposes. This statement also provides guidance for applying fair value to certain investments and disclosure related to all fair value measurements. Application of this statement is effective for fiscal year ending June 30, 2016.

Statement No. 73, Accounting and Financial Reporting for Pension and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. This statement establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria (those not covered by GASB Statements 67 and 68). Application of this statement is effective for District's fiscal year ending June 30, 2016, except those provisions that address employers and governmental non-employer contributing entities that are not within the scope of GASB Statement 68, which are effective for financial statements for fiscal year ending June 30, 2017.

Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. This statement reduces the generally accepted accounting principles (GAAP) hierarchy to two categories of authoritative GAAP from the four categories under GASB Statement No. 55, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*. The first category of authoritative GAAP consists of GASB Statements of Governmental Accounting Standards. The second category comprises GASB Technical Bulletins and Implementation Guides, as well as guidance from the American Institute of Certified Public Accountants that is cleared by the GASB. Application of this statement is effective for fiscal year ending June 30, 2016.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 2 – Cash and Investments

Cash and investments as of June 30, 2016 consisted of the following:

Description	Balance
Cash on hand	\$ 583
Demand deposits held with financial institutions	958,973
Investments	2,936,870
Total cash and investments	\$ 3,896,426

Demand Deposits

At June 30, 2016, the carrying amount of the District's demand deposits was \$958,973 and the financial institutions balances totaled \$1,021,567. The \$62,594 net difference represents outstanding checks, deposits-in-transit and/or other reconciling items.

The California Government Code requires California banks and savings and loan associations to secure an entity's deposits by pledging government securities with a value of 110% of an entity's deposits. California law also allows financial institutions to secure entity deposits by pledging first trust deed mortgage notes having a value of 150% of an entity's total deposits. The entity's Treasurer may waive the collateral requirement for deposits which are fully insured up to \$250,000 by the FDIC. The collateral for deposits in federal and state chartered banks is held in safekeeping by an authorized agent of depository recognized by the State of California Department of Banking. The collateral for deposits with savings and loan associations is generally held in safekeeping by the Federal Home Loan Bank in San Francisco, California as an agent of depository. These securities are physically held in an undivided pool for all California public agency depositors. Under Government Code Section 53655, the placement of securities by a bank or savings and loan association with an agent of depositor has the effect of perfecting the security interest in the name of the local governmental agency. Accordingly, all collateral held by California agents of depository are considered to be held for, and in the name of, the local government.

Custodial Credit Risk

The custodial credit risk for *deposits* is the risk that in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. The District's investment policy requires that collateral be held by an independent third party with whom the District has a current custodial agreement.

The custodial credit risk for *investments* is the risk that in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The District's investment policy requires that all security transactions are conducted on a delivery-versus-payment (DVP) method and that all securities are held by a qualified, third-party custodian, as evidenced by safekeeping receipts. The trust department of the District's bank may act as third-party custodian, provided that the custodian agreement is separate from the banking agreement. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as SDCPIF).

As of June 30, 2016 none of the District's deposits or investments were exposed to disclosable custodial credit risk.

North County Fire Protection District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2016

Note 2 – Cash and Investments (Continued)

Investments

Investments as of June 30, 2016 consisted of the following:

					I	Maturity
Investments	Measurement Input	Credit Rating	_	air Value ne 30, 2016	12	Months or Less
California Local Agency Investment Fund (LAIF) San Diego County Pooled Investment Fund (SDCPIF)	Level 2 Level 2	Not Rated	\$	18,870 2,918,000	\$	18,870 2,918,000
Total investments	Level 2	AAAI/SI	\$	2,936,870	\$	2,936,870

Investments Authorized by the California Government Code and District's Investment Policy

The District has adopted an investment policy which allows deposits into financial institutions and the Sonoma County Treasury's Pooled Investment Fund. Investment types are authorized by the California Government Code Section 53600 et seq. and Section 5922(d).

California Local Agency Investment Fund (LAIF)

The District is a voluntary participant in LAIF which is regulated by California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The District's investments with LAIF at June 30, 2016, included a portion of the pool funds invested in structured notes and asset-backed securities:

<u>Structured Notes</u>: debt securities (other than asset-backed securities) whose cash flow characteristics (coupon rate, redemption amount, or stated maturity) depend upon one or more indices and/or that have embedded forwards or options.

<u>Asset-Backed Securities</u>: generally mortgage-backed securities that entitle their purchasers to receive a share of the cash flows from a pool of assets such as principal and interest repayments from a pool of mortgages (for example, Collateralized Mortgage Obligations) or credit card receivables.

As of June 30, 2016, the District had \$18,870 invested in LAIF, which had invested 2.81% of the pool investment funds in structured notes and medium-term asset-backed securities. The LAIF fair value factor of 1.000621222 was used to calculate the fair value of the investments in LAIF.

North County Fire Protection District Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 2 – Cash and Investments (Continued)

San Diego County Pooled Investment Fund

The SDCPIF is a local government investment pool managed by the County Treasurer's Office on behalf of Investment Pool participants. Depositors in the Investment Pool include both mandatory participants, those agencies required by law to deposit their funds with the County Treasurer's Office, and voluntary participants, agencies that place their funds in the Investment Pool as an investment option. Voluntary participants, including cities, fire districts, and various special districts accounted for approximately 4.72% of the Investment Pool as of June 30, 2016. Pursuant to Section 27130-27137 of the California Government Code, the County Board of Supervisors has established the Treasurer's Oversight Committee (TOC) that monitors and reviews the Investment Policy. The TOC consists of members appointed from the districts or offices that they represent, and up to five members of the public having expertise in, or an academic background in public finance.

To mitigate credit risk, the Investment Pool's Investment Policy, which is more restrictive than the Government Code, places a minimum standard on the ratings of investments held in the Investment Pool. Investments in securities other than those guaranteed by the U.S. Treasury or Government Sponsored Enterprises must have a credit rating of no less than "A" for long-term or "A1" for short-term. Non-rated securities include sweep accounts, collateralized certificates of deposit and repurchase agreements. Sweep accounts and collateralized certificates of deposit must be FDIC insured and collateralized with securities held by a named agent of the depository. Repurchase agreements are collateralized by securities, authorized by the California Government Code Section 53601, having fair market value of 102% or greater than the amount of the repurchase agreement. The Investment Pool does not hold any investments in structured notes.

The Authority's investments with the County Treasurer's Office include a portion of the pool funds invested in asset backed securities. As of June 30, 2016, the Authority had \$2,918,000 invested with the SDCPIF, which had invested 0.55% of the pool investment funds in asset-backed securities.

Fair Value Measurement Input

The District categorizes its fair value measurement inputs within the fair value hierarchy established by generally accepted accounting principles. The District has presented its measurement inputs as noted in the table above.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. As of June 30, 2016, the District's investment in the SDCPIF was rated by Standard & Poor's as AAAf/S1 as noted in the table above.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the fair values of investments with longer maturities have greater sensitivity to changes in market interest rates. The District's investment policy follows the Code as it relates to limits on investment maturities as a means of managing exposure to fair value losses arising from increasing interest rates. The District has elected to use the segmented time distribution method of disclosure for the maturities of its investments as related to interest rate risk as noted in the table above.

Concentration of Credit Risk

The District's investment policy contains no limitations on the amount that can be invested in any one governmental agency or non-governmental issuer beyond that stipulated by the California Government Code. There were no investments in any one governmental or non-governmental issuer that represented 5% or more of the District's total investments except for those in the SDCPIF.

Current		(84,350)			
Long-term	\$	1,725,325			

Note 7 – Loans from County of San Diego

On December 9, 2013, the District entered into two \$1,000,000 loans with the County of San Diego for operations cash flows. The loans are due and payable to the County of San Diego as cash receipts from property tax collections exceed District operational needs. The loans are accruing interest expense at a rate of 0.675% per annum. At June 30, 2015, the outstanding balance was \$2,000,000. In fiscal year 2016, the District repaid these loans of \$2,000,000.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 8 – Workers' Compensation Claims Payable

The District is exposed to various risks of loss and has effectively managed risk through a combination of insurance, with deductibles, self-insurance, and employee education and prevention programs. Expenditures and claims are recognized when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. In determining claims, events that might create claims, but for which none have been reported, are considered. In addition, there were no settlements or claims in the past three years that exceeded insurance coverage.

The District is self-insured for workers' compensation benefits. The District is one of nine participants in the Public Agency Self-Insurance System (PASIS). PASIS is a joint-powers authority which was established in 1977 for the purpose of operating and maintaining a cooperative program of self-insurance and risk management for workers' compensation. There is no pooling of workers' compensation liability between the participants, and each participant self-insures their liability up to \$300,000 per occurrence. As of June 30, 2016, the District had \$450,845 on deposit with PASIS.

All members are responsible for paying their own claims and related expenses. PASIS may advance funds to members who have incurred large losses; however, these advances must be repaid.

Excess insurance is purchased above the self-insured retention. As of June 30, 2016, the liability for workers' compensation claims payable was estimated at \$3,138,625.

Changes in workers' compensation claims payable for the year ended June 30, 2016, were as follows:

Description	Balance
Estimated claims balance – July 1, 2015	\$ 3,750,565
Claim payments Revised claims estimate	5,294,461 (5,906,401)
Change in claims balance	(611,940)
Estimated claims balance – June 30,. 2016	\$ 3,138,625

Note 9 – Net Other Post-Employment Benefits Payable

Plan Description

The District provides Other Post-Employment Benefits (OPEB) to employees who retire from the District and meet certain eligibility requirements. The contribution requirements of Plan members and the District are established and may be amended by the Board of Directors.

Funding Policy

As required by GASB Statement No. 45, an actuary will determine the District's Annual Required Contributions (ARC) at least once every three fiscal years. The ARC is calculated in accordance with certain parameters, and includes (1) the Normal Cost for one year, and (2) a component for amortization of the total Unfunded Actuarial Accrued Liability (UAAL) over a period not to exceed 30 years.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 9 – Net Other Post-Employment Benefits Payable (Continued)

Annual OPEB Cost

For the year ended June 30, 2016, the District's annual OPEB cost was \$154,030. The District's net OPEB obligation amounted to \$289,484 as of June 30, 2016. The District paid \$48,556 for current year OPEB health care premiums.

The following table shows the components of the District's Annual OPEB cost for the past three fiscal years ended June 30th, the amount actually contributed to the plan and the changes in the District's net OPEB asset:

Summary changes in net other post-employment benefits balances as of June 30, 2016 were as follows:

Description	<u>I</u>	Balance
Annual OPEB cost:		
Annual required contribution (ARC)	\$	145,750
Interest on beginning net OPEB obligation		8,280
Total annual OPEB cost		154,030
Contributions made:		
Contributions made		(48,556)
Total contributions made		(48,556)
Change in net other post-employment benefits obligation		105,474
Net other post-employment benefits obligation:		
Beginning of year		184,010
End of year	\$	289,484

The District's annual OPEB cost, the amounts contributed to the irrevocable trust, retiree benefit payments, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation payable/asset for the fiscal year ended June 30, 2016 and the preceding year are shown in the following table.

Three-Year History of Net OPEB Obligation

Fiscal Year Ended	_	Annual OPEB Expense		tributions Made	Percentage of Annual OPEB Cost Contributed	Net OPEB bligation
June 30, 2016	\$	154,030	\$	48,556	31.52%	\$ 289,484
June 30, 2015		146,417		63,937	43.67%	184,010
June 30, 2014		138,052		36,522	26.46%	101,530

The District implemented GASB Statement No 45 in fiscal year ending June 30, 2014 when the District joined CalPERS for medical insurance for their employees and retirees.

The most recent valuation (dated July 1, 2013) includes an Actuarial Accrued Liability of \$1,631,302. There were no plan assets. The covered payroll (annual payroll of active employees covered by the plan) for the year ended June 30, 2013 was \$6,727,225. The ratio of the funded actuarial accrued liability to annual covered payroll was 24.25%.

North County Fire Protection District Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 9 – Net Other Post-Employment Benefits Liability (Continued)

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and the pattern of sharing of costs between the employer and plan members to that point. Consistent with the long-term perspective of actuarial calculations, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities for benefits.

The following is a summary of the actuarial assumptions and methods:

Valuation date July 1, 2013

Actuarial cost method

Amortization method

Level percent of payroll amortization

Remaining amortization period

Asset valuation method

29 Years as of the valuation date

30 Year smoothed market

Actuarial assumptions:

Investment rate of return 4.50%
Projected salary increase 2.75%
Inflation - discount rate 2.75%

Individual salary growth

Health care trend rate

District annual COLA

4.0% - Average 5-year

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 - Net Pension Liability and Defined Benefit Pension Plan

The net pension liability balances have a Measurement Date of June 30, 2015, which are rolled-forward for the District's fiscal year ended June 30, 2016.

In this footnote, the District's net pension liability is comprised of a net pension liability balance and the balance of the District's pension-related debt – CalPERS side-funds as follows:

Description	 Balance
Net pension liability	\$ 15,207,799
Pension-related debt – CalPERS side-fund	 1,870,354
Total net pension liability balance for footnote	\$ 17,078,153

Pension-Related Debt - CalPERS Side-Fund

As of June 30, 2003, CalPERS implemented risk-pooling for the District's agent multiple-employer public employee defined benefit pension plan. As a result, the District's defined benefit pension plan with CalPERS converted from an agent multiple-employer plan to a cost-sharing multiple-employer plan. This change in the type of the plan created the CalPERS Side-Fund, which CalPERS financed at a 7.75% interest rate. CalPERS actuarially calculated the amount needed to bring the District into the cost-sharing multiple-employer plan on an equal basis with other governmental agencies that all had less than 100 active and retired employees combined. The reason that CalPERS switched these governmental agencies into the cost-sharing multiple-employer plan was to smooth out the annual costs related to the pension benefit over a longer period of time resulting in a lower cost of service to the governmental agencies.

A portion of the District's annual required contributions to CalPERS are actuarially determined and shared by all governmental agencies within the cost sharing risk pool. Also, the District is required to make annual payments to paydown the CalPERS Side-Fund, as well. The responsibility for paying-down the District's CalPERS Side-Fund is specific to the District and is not shared by all governmental agencies within the cost sharing risk pool. Therefore, the Side-Fund falls under the definition of pension-related debt and is recorded as liability on the District's financial statements aside from the District's net pension liability.

Annual payments on the CalPERS Side-Fund represent principal and interest payments on the pension-related debt. Debt principal and interest expense is blended into the CalPERS pension benefit rate by individual class of District employee and repaid to CalPERS each payroll period throughout the fiscal year. The following is a pay-down schedule of the remaining payments of the District's CalPERS Side-Fund at a 7.50% interest rate, which was reduced by CalPERS in fiscal year 2012 for fiscal years 2012 and beyond as follows:

Plan Description

The District contributes to the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer defined benefit pension plan. CalPERS acts as a common investment and administrative agent for participating public entities within the State of California. A full description of the pension plan, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2013 Annual Actuarial Valuation Report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 - Net Pension Liability and Defined Benefit Pension Plan (Continued)

General Information about the Pension Plans (Continued)

Members Covered by Benefit Terms

At June 30, 2015 (Valuation Date), the following members were covered by the benefit terms:

	Miscellaneous Plans						
Plan Members	Classic Tier 1	PEPRA Tier 2	Total				
Active members	7	1	8				
Transferred and terminated members	7	1	8				
Retired members and beneficiaries	25_	<u> </u>	25				
Total plan members	39		41				
		Safety Plans					
	Classic	PEPRA					
Plan Members	Tier 1	Tier 2	Total				
Active members	57	10	67				
Transferred and terminated members	59	1	60				
Retired members and beneficiaries	56	<u> </u>	56				
Total plan members	172	11	183				

Benefits Provided

CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. A Classic CalPERS Miscellaneous member becomes eligible for service retirement upon attainment of age 55 with at least 5 years of credited service. Public Employees' Pension Reform Act (PEPRA) Miscellaneous members become eligible for service retirement upon attainment of age 62 with at least 5 years of service. The service retirement benefit is a monthly allowance equal to the product of the benefit factor, years of service, and final compensation. The final compensation is the monthly average of the member's highest 36 full-time equivalent monthly pay. Retirement benefits for Classic Miscellaneous and Safety members are calculated as a percentage of their plan based the average final 36 months compensation. Retirement benefits for PEPRA Miscellaneous and Safety members are calculated as a percentage of their plan based the average final 36 months compensation.

Participant members are eligible for non-industrial disability retirement if they become disabled and have at least 5 years of credited service. There is no special age requirement. The standard non-industrial disability retirement benefit is a monthly allowance equal to 1.8% of final compensation, multiplied by service. Industrial disability benefits are not offered to miscellaneous employees.

A member's beneficiary may receive the basic death benefit if the member dies while actively employed. The member must be actively employed with the District to be eligible for this benefit. A member's survivor who is eligible for any other pre-retirement death benefit may choose to receive that death benefit instead of this basic death benefit. The basic death benefit is a lump sum in the amount of the members' accumulated contributions, where interest is currently credited at 7.5 percent per year, plus a lump sum in the amount of one month's salary for each completed year of current service, up to a maximum of six months' salary. For purposes of this benefit, one month's salary is defined as the member's average monthly full-time rate of compensation during the 12 months preceding death.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 – Net Pension Liability and Defined Benefit Pension Plan (Continued)

General Information about the Pension Plans (Continued)

Benefits Provided (Continued)

Upon the death of a retiree, a one-time lump sum payment of \$500 will be made to the retiree's designated survivor(s), or to the retiree's estate.

Benefit terms provide for annual cost-of-living adjustments to each member's retirement allowance. Beginning the second calendar year after the year of retirement, retirement and survivor allowances will be annually adjusted on a compound basis by 3%.

Contributions

Section 20814(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public employers will be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through CalPERS' annual actuarial valuation process. The public agency cost-sharing plans covered by the Miscellaneous risk pool, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pool's costs of benefits earned by employees during the year, and any unfunded accrued liability. The employer is required to contribute the difference between the actuarially determined rate and the contribution rate of members. For the measurement period ended June 30, 2016 (the measurement date), the active member contribution rate for the Classic Miscellaneous and Safety Plans and the PEPRA Miscellaneous and Safety Plans are based above in the Plans Description schedule.

For the year ended June 30, 2016, the contributions made to the Plan were as follows:

	Miscellaneous Plans							
Contribution Type		Classic Fier 1		EPRA Fier 2		Total		
Contributions – employer Contributions – members	\$	258,256 44,272	\$	6,204 5,992	\$	264,460 50,264

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans

Actuarial Methods and Assumptions Used to Determine the Total Pension Liability

For the measurement period ended June 30, 2016 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2015 total pension liability. The June 30, 2016 total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method Entry Age Normal in accordance with the requirement of GASB

Statement No. 68

Actuarial Assumptions:

Discount Rate 7.50% Inflation 2.75%

Salary Increases Varies by Entry Age and Service

Investment Rate of Return 7.50% Net of Pension Plan Investment and Administrative

Expenses; includes Inflation

Mortality Rate Table Derived using CalPERS' Membership Data for all Funds. The

mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using

Society of Actuaries Scale BB.

Post Retirement Benefit Increase Contract COLA up to 2.75% until Purchasing Power Protection

Allowance Floor on Purchasing Power applies, 2.75% thereafter

All other actuarial assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.50 percent, which is net of administrative expenses. An investment return excluding administrative expenses would have been 7.65 percent. CalPERS' Management has determined that using the lower discount rate has resulted in a slightly higher total pension liability and net pension liability and the difference was deemed immaterial to the financial statements. The long-term expected rate of return on the pension plan investments was determined in which best-estimate ranges of expected future real rates are developed for each major asset class. In determining the long-term expected rate of return, both short-term and long-term market return expectations as well as the expected pension fund cash flows were considered. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major *asset class*.

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 – Net Pension Liability and Defined Benefit Pension Plan (Continued)

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

Discount Rate (Continued)

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Investment Type	New Strategic Allocation	Real Return Years 1 - 10 ¹	Real Return Years 11+ ²
Global Equity	47.00%	5.25%	5.71%
Global Fixed Income	19.00%	0.99%	2.43%
Inflation Sensitive	6.00%	0.45%	3.36%
Private Equity	12.00%	6.83%	6.95%
Real Estate	11.00%	4.50%	5.13%
Infrastructure and Forestland	3.00%	4.50%	5.09%
Liquidity	2.00%	-0.55%	-1.05%
	100.00%		

 $^{^{1}}$ An expected inflation rate-of-return of 2.5% is used for years 1-10.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the District's proportionate share of the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.5%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.50%) or 1 percentage-point higher (8.50%) than the current rate:

	Plan's Net Pension Liability/(Asset)							
	Discount Rate - 1%	Current Discount	Discount Rate + 1%					
Plan Type	6.65%	Rate 7.650%	8.65%					
CalPERS – Miscellaneous Plan	\$ 3,546,656	\$ 2,513,559	\$ 1,660,618					
	Plan's I	Net Pension Liability	y/(Asset)					
	Discount Rate - 1%	Current Discount	Discount Rate + 1%					
Plan Type	6.65%	Rate 7.650%	8.65%					
CalPERS – Safety Plan	\$ 24,656,014	\$ 14,564,594	\$ 6,289,814					

² An expected inflation rate-of-return of 3.0% is used for years 11+.

Change in Plan Net Pension Liability	\$ 1,436,313	\$ 1,651,832	\$ (215,519)		

North County Fire Protection District Notes to the Basic Financial Statements (Continued)

For the Year Ended June 30, 2016

Note 10 – Net Pension Liability and Defined Benefit Pension Plan (Continued)

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

Proportionate Share of Net Pension Liability and Pension Expense (Continued)

The following is the approach established by the plan actuary to allocate the net pension liability and pension expense to the individual employers within the risk pool.

- (1) In determining a cost-sharing plan's proportionate share, total amounts of liabilities and assets are first calculated for the risk pool as a whole on the valuation date (June 30, 2015). The risk pool's fiduciary net position ("FNP") subtracted from its total pension liability (TPL) determines the net pension liability (NPL) at the valuation date.
- (2) Using standard actuarial roll forward methods, the risk pool TPL is then computed at the measurement date (June 30, 2015). Risk pool FNP at the measurement date is then subtracted from this number to compute the NPL for the risk pool at the measurement date. For purposes of FNP in this step and any later reference thereto, the risk pool's FNP at the measurement date denotes the aggregate risk pool's FNP at June 30, 2015 less the sum of all additional side fund (or unfunded liability) contributions made by all employers during the measurement period (2014-15).
- (3) The individual plan's TPL, FNP and NPL are also calculated at the valuation date.
- (4) Two ratios are created by dividing the plan's individual TPL and FNP as of the valuation date from (3) by the amounts in step (1), the risk pool's total TPL and FNP, respectively.
- (5) The plan's TPL as of the Measurement Date is equal to the risk pool TPL generated in (2) multiplied by the TPL ratio generated in (4). The plan's FNP as of the Measurement Date is equal to the FNP generated in (2) multiplied by the FNP ratio generated in (4) plus any additional side fund (or unfunded liability) contributions made by the employer on behalf of the plan during the measurement period.
- (6) The plan's NPL at the Measurement Date is the difference between the TPL and FNP calculated in (5).

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 - Net Pension Liability and Defined Benefit Pension Plan (Continued

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

Proportionate Share of Net Pension Liability and Pension Expense (Continued)

The District's proportionate share of the net pension liability was as follows:

	Percentage Sha		
	Fiscal Year	Fiscal Year	Change
	Ending	Ending	Increase/
CalPERS – Miscellaneous Plan	June 30, 2016	June 30, 2015	(Decrease)
Measurement Date	June 30, 2015	June 30, 2014	
Percentage of Risk Pool Net Pension Liability	0.091620%	0.089133%	0.002487%
Percentage of Plan (PERF C) Net Pension Liability	0.036620%	0.035402%	0.001218%
	Percentage Sha	are of Risk Pool	
	Fiscal Year	Fiscal Year	Change
	Ending	Ending	Increase/
CalPERS – Safety Plan	June 30, 2016	June 30, 2015	(Decrease)
Measurement Date	June 30, 2015	June 30, 2014	
Percentage of Risk Pool Net Pension Liability	0.353471%	0.394034%	-0.040562%
Percentage of Plan (PERF C) Net Pension Liability	0.212191%	0.237528%	-0.025337%

For the year ended June 30, 2016, the District recognized pension expense in the amounts of \$126,548 and \$624,688 for the Classic Miscellaneous and Safety plans, respectively.

The amortization period differs depending on the source of the gain or loss. The difference between projected and actual earnings is amortized over 5-years straight line. All other amounts are amortized straight-line over the average expected remaining service lives of all members that are provided with benefits (active, inactive and retired) as of the beginning of the measurement period.

The expected average remaining service lifetime (EARSL) is calculated by dividing the total future service years by the total number of plan participants (active, inactive, and retired) in the risk pool. The EARSL for risk pool for the 2014-15 measurement period is 3.8 years, which was obtained by dividing the total service years of 460,700 (the sum of remaining service lifetimes of the active employees) by 122,789 (the total number of participants: active, inactive, and retired).

Notes to the Basic Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 – Net Pension Liability and Defined Benefit Pension Plan (Continued)

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

Deferred Outflows of Resources and Deferred Inflows of Resources

At June 30, 2016, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Account Description		red Outflows Resources	Deferred Inflows of Resources		
Pension contributions made after the measurement date	\$	\$ 2,249,592		-	
Difference between actual and proportionate share of employer contributions		84,959		206,266	
Adjustment due to differences in proportions		201,922		1,129,753	
Differences between expected and actual experience		12,882		227,399	
Differences between projected and actual earnings on pension plan investments		-		591,160	
Changes in assumptions				1,167,761	
Total Deferred Outflows/(Inflows) of Resources	\$	2,549,355	\$	3,322,339	

The District will recognize \$2,249,592 reported as deferred outflows of resources related to pensions resulting from the District's contributions subsequent to the measurement date as a reduction of the net pension liability in the fiscal year ended June 30, 2016, as noted above.

North County Fire Protection District Notes to the Financial Statements (Continued) For the Year Ended June 30, 2016

Note 10 – Net Pension Liability and Defined Benefit Pension Plan (Continued)

Net Pension Liability, Pension Expenses, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pension Plans (Continued)

Amortization of Deferred Outflows of Resources and Deferred Inflows of Resources

Other remaining amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be amortized to pension expense in future periods as follows:

Amortization Period Fiscal Year Ended June 30	Deferred Outflows of Resources		rred Inflows Resources
2017	\$	117,047	\$ (1,394,229)
2018		115,330	(1,395,961)
2019		67,386	(1,219,016)
2020		<u> </u>	 686,867
Total	\$	299,763	\$ (3,322,339)

Note 11 – Net Investment in Capital Assets

Net investment in capital assets as of June 30, 2016 consisted of the following:

Description	 Balance		
Capital assets – not being depreciated	\$ 612,639		
Capital assets – being depreciated, net	10,514,032		
Long-term debt obligations payable – current portion	(231,743)		
Long-term debt obligations payable – noncurrent portion	(4,897,381)		
Total net investment in capital assets	\$ 5,997,547		

Note 12 – Restricted Net Position

The District has constraints placed on its net position totaling \$932,761 through external constraints imposed by creditors, grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Note 13 – Unrestricted Net Position (Deficit)

As of June 30, 2016, the District has an unrestricted net position deficit of (\$19,299,910). The unrestricted net position deficit resulted from the reporting of the District's net pension lability, the pension-related debt – CalPERS side-fund liability, and the deferred inflows of resources – deferred amounts related to net pension liability per GASB No. 68. At June 30, 2016, the District's net pension lability amounted to \$15,207,799, the pension-related debt – CalPERS side-fund liability amounted to \$1,870,354, and the deferred inflows of resources – deferred amounts related to net pension liability amounted to \$3,322,339, which totals \$20,400,492. The District will continue to make its actuarial determined contributions to CalPERS and annually review its outstanding net pension obligation funding requirements.

North County Fire Protection District Notes to the Financial Statements (Continued) For the Year Ended June 30, 2016

Note 14 – Fund Balance

A detailed schedule of fund balances and their funding composition at June 30, 2016 is as follows:

	General Mitigation Government		Other ernmental Funds	Total		
Nonspendable:						
Advance to other fund	\$	2,078,524	\$ (2,078,524)	\$	83,945	\$ 83,945

General Fund	Other Governmental	\$	20,893	Operations
Special Revenue	Other Governmental		618	Operations
Other Governmental	Other Governmental		143,489	Operations
	Total	\$	165,000	

North County Fire Protection District Notes to the Financial Statements (Continued) For the Year Ended June 30, 2016

Note 16 – Deferred Compensation Savings Plan

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program. The purpose of this Program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death or unforeseeable emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors.

The District has implemented GASB Statement No. 32, Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans. Since the District has little administrative involvement and does not perform the investing function for this plan, the assets and related liabilities are not shown on the accompanying statement of net position.

Note 17 – Risk Management

The District is insured for a variety of potential exposures. The following is a summary of the insurance policies carried by the District as of June 30, 2016:

General liability: \$1,000,000 per occurrence and \$3,000,000 aggregate. The District purchased additional excess coverage layers: \$10 million per occurrence and \$20 million aggregate for general and auto liability, which increases the limits on the insurance coverage noted above.

Auto liability: \$1,000,000 liability limits and deductibles applied to specific vehicles with a \$1,000 deductible on Comprehensive and Collision, and other vehicles have a \$1,000 deductible on Comprehensive and on Collision.

Note 18 - Contingencies

Litigation

In the ordinary course of operations, the District is subject to other claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, other than the matter discussed above, will not materially affect its financial condition.

Required Supplementary Information (Unaudited) Schedule of the District's Proportionate Share of the Plan's Net Pension Liability For the Year Ended June 30, 2016

Last Ten Fiscal Years

California Public Employees' Retirement System (CalPERS)

Measurement Date:		ne 30, 2015 ¹	Ju	ne 30, 2014 ¹
District's Proportion of the Net Pension Liability		0.248810%		0.272930%
District's Proportionate Share of the Net Pension Liability	\$	17,078,153	\$	16,983,012
District's Covered-Employee Payroll	\$	6,452,080	\$	6,429,039
District's Proportionate Share of the Net Pension Liability as a Percentage of Covered-Employee Payroll		264.69%		264.16%
Plan's Fiduciary Net Position as a Percentage of the Plan's Total Pension Liability		78.96%		78.67%

¹ Historical information is required only for measurement periods for which GASB No. 68 is applicable.

Required Supplementary Information (Unaudited) Schedule of the District's Contributions to the Pension Plan For the Year Ended June 30, 2016

Last Ten Fiscal Years

California Public Employees' Retirement System (CalPERS)

Fiscal Year:	2015-16 ¹		 2014-151	2013-141		
Actuarially Determined Contribution ² Contribution in Relation to the Actuarially Determined Contribution ²	\$	2,249,592 (2,249,592)	\$ 1,929,643 (1,929,643)	\$	1,905,899 (1,905,899)	
Contribution Deficiency (Excess)	\$	_	\$ 	\$		
District's Covered-Employee Payroll ³	\$	6,478,250	\$ 6,452,080	\$	6,429,039	
Contributions as a Percentage of Covered-Employee Payroll		34.73%	29.91%		29.65%	

¹ Historical information is required only for measurement periods for which GASB No. 68 is applicable.

Notes to the Schedule:

Change in Benefit Terms: The figures above do not include any liability impact that may have resulted from plan changes which occurred after June 30, 2013 as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

² Employers are assumed to make contributions equal to the actuarially determined contributions (which is the actuarially determined contribution). However, some employers may choose to make additional contributions towards their side-fund or their unfunded liability. Employer contributions for such plan exceed the actuarial determined contributions. CalPERS has determined that employer obligations referred to as *side-funds* are not considered separately financed specific liabilities.

³ Covered-Employee Payroll represented above is based on pensionable earnings provided by the employer. However, GASB No. 68 defines covered-employee payroll as the total payroll of employees that are provided pensions through the pension plan. Accordingly, if pensionable earnings are different than total earnings for covered-employees, the employer should display in the disclosure footnotes the payroll based on total earnings for the covered group and recalculate the required payroll-related ratios.

Required Supplementary Information (Unaudited) Schedule of Funding Progress – Other Post-Employment Benefits Plan For the Year Ended June 30, 2016

			Unfunded			UAAL as a	
	Actuarial	Actuarial	Actuarial			Percentage

Valuation	Plan Assets	Liability	Liability (UAAL)	Ratio	Payroll	Payroll	
Date	(a)	(b)	(b-a)	(a/b)	(c)	((b-a)/c)	
July 1, 2013	\$ -	\$ 1,631,302	\$ 1,631,302	0.00%	\$ 6,727,225	24.25%	

Note 1 - Other Post-Employment Benefits

Funding progress is presented for the year(s) that an actuarial study has been prepared since the effective date of GASB Statement No. 45. Actuarial review and analysis of the post-employment benefits liability and funding status is performed every three years or annually, if there are significant changes in the plan. The next scheduled actuarial review and analysis of the post-employment benefits liability and funding status will be performed in fiscal year 2017, based on the year ending June 30, 2016.
